What included

Software

“Your Company” offers a complete rewards system for consumers or companies when recycling responsibly. The solution includes a full Backend administration portal, Website, and Android & iOS apps. The solution is exclusive and can get customized according to your designated colors, Logo, locations, news and other related information. All hosting is included on the package in a share hosting server.

How it works?

Members can redeem points for products of our company that will be offered below best international prices in various schemes. Some of the schemes are Co-Pay (Points & Money), Pay by your company, or FREE

Example: Zagg Bluetooth sport Earbud,
Manufacturer Retail Price: 25,00€
Best price on internet: 11,00€
For your members only: 6,00 €

Collection of Points

Consumers, businesses, groups collect points through completion of certain tasks, purchases, recycling drops. Also, get bonus points on certain events like birthdays, sign-up university, Public holidays etc. As an administrator you have full control how rewards are deployed and controlled.

Product Delivery

Products can be delivered in advance to your location(s) or partners where members can view, receive them directly or drop ship directly from our warehouse

All this is FREE of Charge!!

Customer Service

Customer services is PAID service that can support your members if needed.

* Requires predefine marketing effort or budget.

THE Reuse System

Why Free;

Our company is following the strategy of micro-payments. We making a small percentage from the items that members buy or from the products they recycle.

Product Categories;

Some of the product's categories that consumers have access in our platform:

Technology

Cookware

Hobby

Linens

Toys

Lighting

Tools

Your Responsibilities

Your responsibilities are to share the program within your group and handle the marketing campaign

Marketing campaign success is measured on downloading of the APP, conversions, points collected or a combination of all.

We work together to drive what is the most suitable marketing strategy.
